

# Wi-Fi Printing

## Setup & Printing Guide for macOS Devices

### Note:

Please make sure your device is using Wi-Fi SSID: **LU** or **LU-Advanced**.

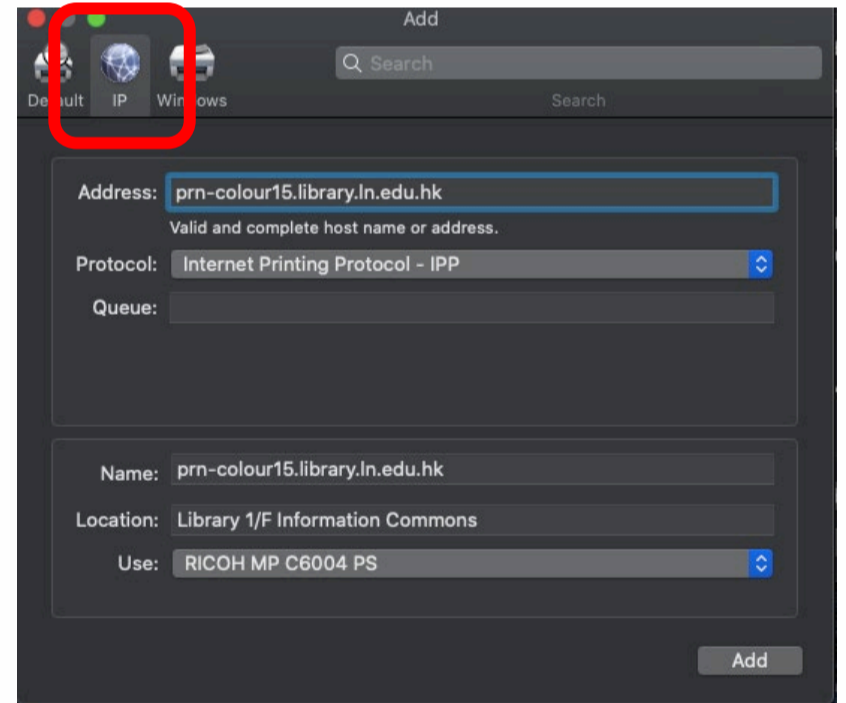

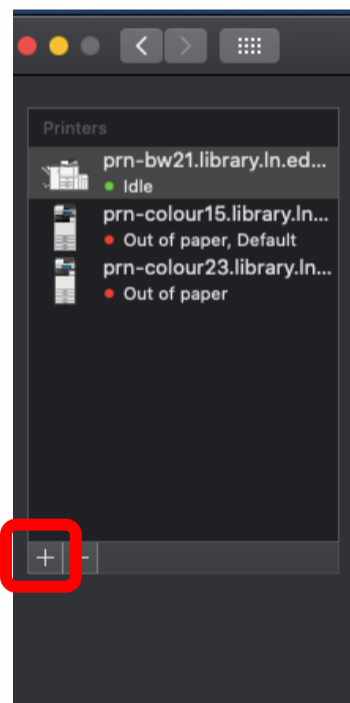

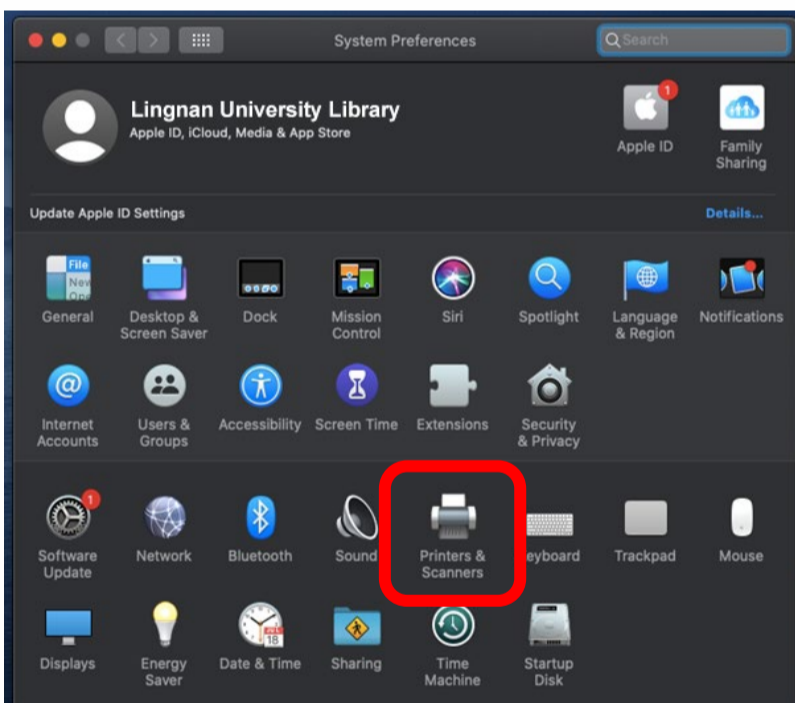

### STEP 1

- Go to [https://support.ricoh.com/bb/html/dr\\_ut\\_e/apc/model/mpc4504/mpc4504.htm](https://support.ricoh.com/bb/html/dr_ut_e/apc/model/mpc4504/mpc4504.htm) (You can scan the QR code)
- Select your macOS and click **[Download]**
- Follow the on-screen instructions to install the printer to your macOS devices

### Add Printer STEP 2

- Go to **"System Preferences"** and select **"Printers & Scanners"**
- Click **"+"** and select **"IP"** on the top

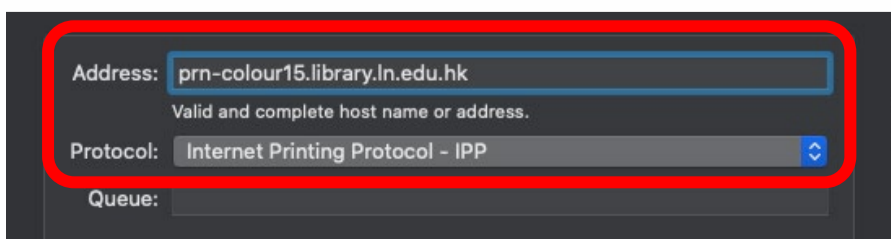

### STEP 3

- Input the Host Name for the desired MFP (You may refer to the device information from the table)
- Select **"Internet Printing Protocol - IPP"** and Click **[Add]**

Printer name	Host Name
<b>B&amp;W21</b>	PRN-bw21.library.LN.edu.hk
<b>Colour15</b>	PRN-colour15.library.LN.edu.hk
<b>Colour23</b>	PRN-colour23.library.LN.edu.hk

### Note:

ONLY these 3 MFPs support macOS Wi-Fi Printing

## Setup & Printing Guide for macOS Devices

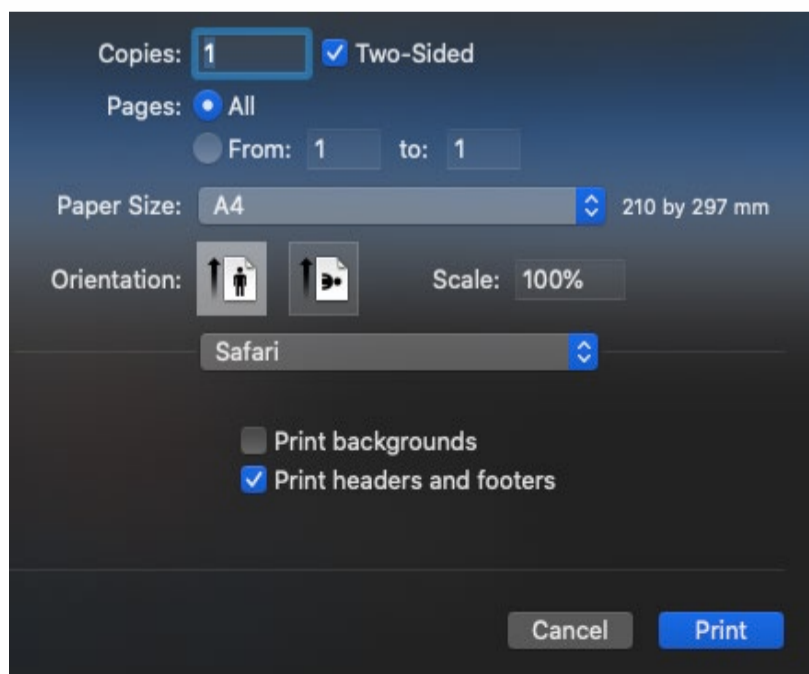

### Printing **STEP 4**

Similar to Library Public PCs printing, you have to assign a **"User ID"** and **"Password"** to your print job. (Wi-Fi printing does not support Google Chrome, please use other Internet browsers to proceed.)

- In print setting, choose a printer and select **"Job Log"**
- Select **"Locked Print"** in Job Type
- Input 4-8 alphanumeric characters in the self-assigned **User ID** and 4-8 digit numbers in the **Password (PIN)** fields

### **STEP 5**

- Double-check the printing preferences
- Click **[Print]** and collect your print job at the MFP
